WHAT DOES AESOP MEAN FOR SUPERINTENDENTS?

Meaningful Information.

Since you're responsible to monitor efficiencies and costs across numerous schools, you need on-demand access to district data. Quickly organizing and compiling reports can be a nightmare. That's why we developed Aesop.

As Software-as-a-Service, Aesop is second to none in its online data tracking and completely customizable reporting. Here's how Aesop addresses some common concerns we hear from superintendents:

"I need to be able to graphically view data and easily analyze district trends."

Aesop is unsurpassed in capturing district data and offering you graphical snapshots of activity, such as current absences and fill rates, across your district. Aesop offers limitless reporting options, including pre-built reports and a custom drag-and-drop report builder. Aesop gives you the power to better analyze absence trends, so you can increase efficiency and reduce costs like substitute pay and teacher absenteeism.

"I'm not sure if a new automated system is a good investment for our district."

Aesop is one of the best budget-planning tools for districts of any size. By accurately capturing absence and fill rate data, you can analyze trends to effectively manage substitute compensation. Aesop's tracking increases teacher accountability, cutting discretionary absences. By obtaining fill rates often at 100%, your district can save money by reducing teacher class coverage costs.

"I'd like a way to improve communication at all levels in our district." Through email notifications, Aesop can keep teachers, subs and administrators up-to-date on job assignments, cancellations, reports and more. Aesop allows district, school and employee users to attach documents for substitutes right to the absences. By letting teachers provide feedback on substitutes, you can ensure the best people are in the classroom.

For superintendents, Aesop means an easy way to funnel absence and substitute information into meaningful data.

• WHAT IS AESOP?

Aesop is an automated substitute placement and absence management service that uses an integrated phone and web system. Unlike traditional sub-calling systems, Aesop's Software-as-a-Service model does not require any hardware or software at the district office. Users simply log in via the web or phone anytime, anywhere. Aesop not only saves countless hours of manual sub-calling, but also offers efficient absence tracking and reporting.
